

How to Take Photos for Your Virtual Consultation

INSTRUCTIONS:

- Do not include your face in photos (unless procedure involves face)
- Hair should be tied back, if possible
- Hang arms by your side with your hands approximately 12 inches away from your body
- Posture should be identical in all 3 photos
- Take photos in front of a neutral background
- Take photos in a well-lit environment, use flash if necessary
- Photos should be sent in color and in JPG format
